

Selfie Stick Plus

The perfect selfie. Any time at anywhere with handy remote shutter!

Selfies are the latest trend. Stars and celebrities are taking the lead - and everyone is enthusiastically snapping away. The new Selfie Stick Plus from DICOTA helps you to get the perfect snapshot. From above, below or from the front. Great angle - great pictures! Designed for use with popular digital cameras and smartphones.

Social Media are in. Messenger services send images within seconds - all at the touch of a button. Pair your device with Bluetooth remote shutter and enjoy taking great picture, with this pocket-sized bluetooth shutter, you will never miss any moment for pictures. The stick material is designed for outdoor use, the non-slip handle provides optimum grip, and the Selfie Stick can be extended from 20cm to 116cm in 7 stages. 2. The remote shutter works with most Smartphones as of iOS 6.0 and Android 4.2.2, without the need for any additional App. If the Smartphone is not supported by the remote control, you can download the free "Camera 360" App, which also enables unrestricted use of the remote control. Creativity knows no bounds - inspiring snapshots on the go.
